» COMPANY PROFILE

AUTOCRUZE: Where Innovation Meets the Open Road

At AUTOCRUZE, we engineer revolutions in motion, where advanced technology dances with the rhythm of the road.

Born from the fusion of biomimetic design and quantum material science, our tires are silent revolutionaries beneath every vehicle. They are more than just rubber meeting asphalt; they are adaptive ecosystems that transform mundane drives into symphonies of precision engineering.

Within our Industry 4.0 plant:

- 12-million unit annual capacity
- AI-driven quality control with micron-level accuracy
- Closed-loop sustainable manufacturing system
- Strategic OEM partner to global automotive leaders

AUTOCRUZE: Your Journey, Perfected.

TECHNICAL FEATURE A

Four wide circumferential tread grooves and lateral grooves with fine sipes provide efficient water evacuation, outstanding wet performance.

TECHNICAL FEATURE B

Continuous outside tread blocks enhance excellent performance and precise control when cornering at high speed. The special rib segment design optimize contact pressure distribution, improve road contact area and provide precise control. The serrated groove walls absorb noise and deliver a quieter ride.

TECHNICAL FEATURE C

Continuous block patterns on shoulder enhance the ride stability at high speed cornering.

TECHNICAL FEATURE D

Special tread compound delivers excellent grip on both dry and wet roads and reduce the rolling resistance to save oil and protect environment.

CATCHFORS UHP

SPORTY PERFORMANCE PCR

Ultra high performance tire provides ultimate performance during high speed drive.

UTQG: 420 A A M+S

RANGE:	15-21
SPEED RATE:	V/W
ASPECT RATIO:	30-60
SECTION WIDTH:	185-315

CATCHFORS UHP

TECHNICAL FEATURE A

Four wide circumferential tread grooves and lateral grooves with fine sipes provide efficient water evacuation, outstanding wet performance.

TECHNICAL FEATURE B

The unique ribbed tread pattern design optimizes pressure distribution and increases the contact area; the intermittent rubber strip design disrupts resonance, effectively reducing noise for a quiet and comfortable ride.

TECHNICAL FEATURE C

Asymmetric tread pattern design, combined with an adaptive tread design specifically engineered for sport-oriented ultra-high performance, ensures exceptional stability and riding comfort even on both wet and dry road surfaces.

TECHNICAL FEATURE D

Special tread compound delivers excellent grip on both dry and wet roads and reduces the rolling resistance to save oil and protect environment.

EAGLEFORS UHP

ULTRA HIGH PERFORMANCE

The eagle-bionic striking pattern with all-season performance is specially designed for SUV sports coupe and luxury sedan applications, ensuring reliable performance and attractive driving.

UTQG: 420 A A M+S

RANGE:	22-26
SPEED RATE:	W
ASPECT RATIO:	25-50
SECTION WIDTH:	245-305

TECHNICAL FEATURE A

Asymmetrical tread block geometry for even wearing, excellent handling, and highspeed highway stability.

TECHNICAL FEATURE B

Large outside blocks for enhanced braking and cornering responsiveness.

TECHNICAL FEATURE C

Two wide circumferential grooves, efficiently channel water away to minimizehydroplaning.

TECHNICAL FEATURE D

Variable pitch layout, optimized sipes distribution and grooves design to improvingdriving comfort.

CATCHFORS H/T

CITY SUV

CATCHFORS H/T is designed for crossovers and SUVs, significantly reducing road noise for smooth and quiet rides every day. It features enhanced wet traction for improved driving safety, particularly on longer trips.

UTQG: 500 A A M+S

RANGE:	16-18
SPEED RATE:	H/V
ASPECT RATIO:	55-70
SECTION WIDTH:	215-285

CATCHFORS H/T

TECHNICAL FEATURE A

Four wide circumferential tread grooves deliver the ride stability and offer excellent performance on wet conditions. Improved grooves and bead profile design offer better ride stability, endurance and handling performance.

TECHNICAL FEATURE B

The open shoulder grooves prevent aquaplaning with enhanced wet grip performance and provide excellent water evacuation. Continuous tread blocks on both shoulder give great support to enhance the ride stability when cornering.

TECHNICAL FEATURE C

Variable pitch pattern and solid center ribs improve the ride stability, reduce the noise and deliver a comfortable ride.

TECHNICAL FEATURE D

High-density sipes with special compound deliver a smooth ride and improve traction on dry and wet roads. Seamless nylon belt and robust structural design deliver a reinforced carcass, improving reliability and durability.

EAGLEFORS H/T

HIGHWAY TERRAIN

The EAGLEFORS H/T, as a all-season light truck highway tire, is engineered to make the most of your on-road driving. Available in a wide range of sizes and offers an upgraded ride quality and versatile look for your light truck, suv, or crossover vehicle.

UTQG: 480 A A M+S

Only for P series

RANGE:	16-20
SPEED RATE:	R/V/S
ASPECT RATIO:	50-85
SECTION WIDTH:	215-275

EAGLEFORS H/T

TECHNICAL FEATURE A

Symmetric, non-directional tread design enable easier rotations in turn to reduce irregular wear with continuous shoulder design.

TECHNICAL FEATURE B

Optimized central 3-rib design provides increased dry and wet traction while improving highway stability.

TECHNICAL FEATURE C

Four deep and wide circumferential grooves to efficiently evacuate water and slush for better all season traction.

TECHNICAL FEATURE D

Vairous block pitches arrangement to reduce road noise for a more comfortable ride. Variable angle lateral grooves and sipes improve the wear life by minimizing irregular wear and for a smoother, quieter ride.

CATCHFORS ATII

ALL TERRAIN

Robust all-terrain adaptability and anti-tear tread design, balancing off-road escape capability and highway comfort, is a versatile and durable choice for-core SUVs and pickups.

UTQG: 500 A B M+S

Only for P series

RANGE:	15-20
SPEED RATE:	H/R/S/T
ASPECT RATIO:	50-85
SECTION WIDTH:	215-315

CATCHFORS ATII

TECHNICAL FEATURE A

Four main zigzag grooves and rough lateral blocks provide excellent traction on all kinds of road conditions.

TECHNICAL FEATURE B

The open shoulder grooves prevent aquaplaning with enhanced wet grip performance and provide excellent water evacuation. The white letter styling provide a artistic image.

TECHNICAL FEATURE C

The block tread design with multiple sipes provide outstanding offroad traction and reduce tread damage on off-road condition.

TECHNICAL FEATURE D

Jointless Nylon band and strong structure design provided the strong carcass to enhance the reliability and durability. Special tread compound and wide footprint enhance tread life and deliver excellent braking on wet and dry roads.

EAGLEFORS ATX

ALL TERRAIN

The popular EAGLEFORS ATX combines versatility and distinctive design into on and off road traction, ride comfort and reliability, more struggling than normal AT tire in various road conditions.

UTQG: 500 A A M + S

Only for P series

RANGE:	17-24
SPEED RATE:	T/H/S/R
ASPECT RATIO:	45-75
SECTION WIDTH:	225-325

EAGLEFORS ATX

TECHNICAL FEATURE A

Strength engineering and central large blocks deliver off-road traction + on-road stability.

TECHNICAL FEATURE B

Rugged and extended over-the-shoulder tread for enough gripping and cuts prevented in harsh off-roading.

TECHNICAL FEATURE C

Wide-narrow groove arrangement reduces road noise and improves traction.

TECHNICAL FEATURE D

Strong inner structure + optimally biting edges: better handling, stable dirt/mud/snow performance, quiet rides.
