Passenger Car, SUV and Light Truck

INTRODUCTION

EXPERIENCE THE DIFFERENCE WITH LANDSPIDER - YOUR TRUSTED PARTNER FOR ALL YOUR TIRE NEEDS AT ANYTIME, EVERYWHERE.

Qingdao Landspider Tire Corp., Ltd is dedicated to enhancing the driving experience for every customer by crafting exceptional tires that prioritize comfort, safety, and performance. With over 12 years of rapid expansion, we have emerged as the leading tire supplier in China, achieving a total turnover of \$430 million in 2023 and aiming for \$500 million in 2025, with a global reach extending to more than 150 countries and regions.

With a deep understanding of the unique demands of Middle East & Africa consumers, we specialize in developing cutting-edge products tailored specifically for this market segment. Our tires are meticulously designed and developed to address the diverse needs and preferences of Middle East & Africa consumers, meeting stringent standards and requirements. Leveraging advanced Industry 4.0 production techniques, our state-of-the-art facilities guarantee superior performance and reliability in every tire we produce.

As a new entrant in the market, Landspider brand offers a diverse range of tire options to meet the evolving demands of consumers, ranging from compact to luxury vehicles. Our tires are engineered to deliver superior performance, including improved fuel economy, a quiet and comfortable ride, and extended longevity. We prioritize teamwork, innovation, safety, and market orientation, ensuring professional-grade products that can be customized to meet individual requirements.

Choose Landspider for premium-quality tires tailored to the European market, continuous innovation, industry-leading manufacturing processes, and exceptional after-sales service.

ECO PCR

The summer tire EUROTRAXX H/P is designed to provide you with safety at all times and offer the best longevity in its category.

- Non-symmetric from outside to inside for high-class performance. With close stiffness of two shoulders design, more freedom is allowed.
- High performance compound and optimal block/void ratio ensures for great dry braking and handling.
- The design of circumferential grooves for the series can efficiently avoid aquaplaning and deliver strong braking performance.
- Anti-closing design to improve road grip, especial in wet conditions.
- Internal structure engineering for superior safety throughout the life of the tire.

SPORTRAXX UHP II

SPORTY PERFORMANCE PCR

Highly stylish and specially engineered for various luxury sedans and EVs.

- Sporty and stylish HP/UHP non-symmetric tread pattern design. Logical control of the transition from inside to outside ensures excellent wet and dry performance.
- Continuous tread ribs and reinforced shoulder block design for high-speed stability and uniform treadwear.
- The "Golf Theory" application to the walls of four wide circumferential grooves enhances water evacuation and reduces noise levels.
- Variable pitch design and optimized alignment effectively reduce rolling noise and enhance driving comfort.

GRANDTRAXX A/T

SUV & 4X4

The GRANDTRAXX A/T is an all-season, all-terrain tire designed for SUV and CUV drivers, built to perform reliably both on-road and off-road.

- The unique symmetrical tread pattern design provides smooth driving performance on highways and urban roads, improving ride comfort. The ultra wide grounding surface greatly enhances the driving range in harsh road conditions.
- The anti abrasion layer design on the sidewall provides additional protection against many common dangers in harsh off-road conditions.
- The irregular distribution of sipes and various pitch alignment significantly reduces tire noise.
- The special silicon dioxide tread composite material not only greatly improves the performance of braking, turning, and handling. It also reduces rolling resistance, thereby improving fuel economy.

WILDTRAXX A/T II

COMMERCIAL VAN

The WILDTRAXX A/T II is a premium all-terrain tire engineered for light trucks and commercial vans. Its unique tread pattern and advanced compound deliver enhanced load capacity, superior handling, increased durability, and a comfortable ride.

- Multi-sipe design provide good handling and braking performance.
- Tread block design improves grip performance.
- Zigzag main grooves increased tread rigidness, good prevention of irregular wear under high-load operation.
- 3D shoulder design provide good traction and braking performance on tough road conditions.
- Complies with international standard tire conditions and has high snow performance, allowing direct driving even when restricted by tire chains in winter. The tires are engraved with the three-peak Mountain snowflake logo and M+S.

WINTERTRAXX SUV

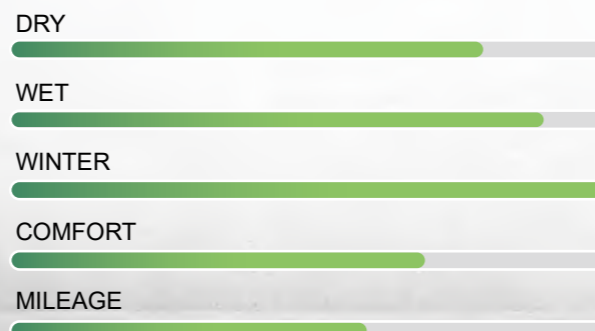

WINTERTRAXX SUV

STUDLESS SNOW TIRE

WINTERTRAXX SUV is a contemporary snow tire for SUV, boasting a saw-tooth tread design for exceptional handling and traction

- Large block tread design for increased traction and handling under snowy conditions.
- Unidirectional pattern provides improved snow clearing performance and consistent traction.
- Saw-toothed block and high-density sipe arrangement for improved grip on snow and ice.
- Multi-pitch tread design minimizes pattern noise for excellent ride refinement.
- Specially formulated compound for excellent traction on snow and ice.

WINTERTRAXX H/P

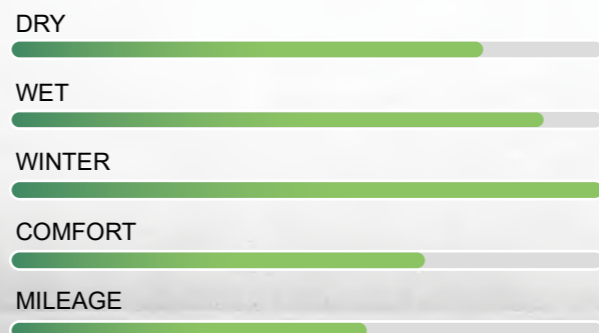

WINTERTRAXX H/P

STUDLESS WINTER TIRE

WINTERTRAXX H/P is an asymmetrical modern snow tire featuring superior handling and traction under winter conditions.

- Asymmetrical winter tire designed for snowy conditions.
- High-density 3D ripple sipes improve overall wear pattern and traction on snowy and icy surfaces.
- Silica-infused tread compound widens operational temperature range and increases traction on snow and ice.
- Pattern design offers superior handling and traction on snowy surfaces.

ARCTICTRAXX

STUDDABLE WINTER TIRE

ARCTICTRAXX is a set of winter tires suitable for various terrains, suitable for northern winter, with excellent grip. Able to achieve absolute stability and balance under any weather conditions.

- Dedicated, specially designed studs for the middle tread and independent studs for shoulder areas, providing excellent longitudinal grip, the grip and handling performance on icy and snowy surfaces are strengthened greatly.
- The wide lateral grooves provide sharper edges that can improve the traction and grip on snow, shorten the braking distance with power.
- Zig-zag 3D sipes improve performance on snow and ice surface with its maximized actual contact area under deflection and edge effect without losing block stiffness.
- Special tread compound remains flexible at lower temperatures to make sure the grip on winter road conditions.
- Specialized minigrooves on the surface to improve the roughness for safer grip on icy/snowy road.

EUROTRAXX H/P

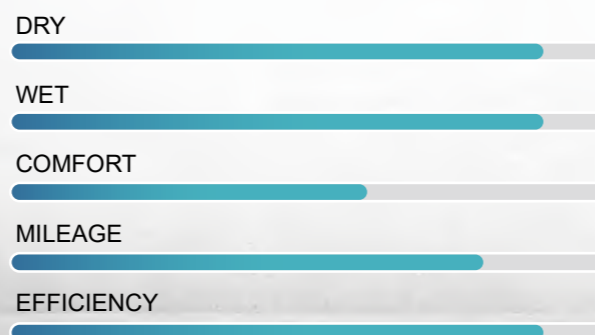

ECD PCR

The summer tire EUROTRAXX H/P is designed to provide you with safety at all times and offer the best longevity in its category.

- Non-symmetric from outside to inside for high-class performance. With close stiffness of two shoulders design, more freedom is allowed.
- High performance compound and optimal block/void ratio ensures for great dry braking and handling.
- The design of circumferential grooves for the series can efficiently avoid aquaplaning and deliver strong braking performance.
- Anti-closing design to improve road grip, especial in wet conditions.
- Internal structure engineering for superior safety throughout the life of the tire.

SPORTRAXX UHP

SPORTY PERFORMANCE PCR

The SPORTRAXX UHP aims to maximize road performance and driving pleasure of their newest sport car, super SUVs and electrified vehicles.

- The adaptive tread design specially for sporty Ultra-High-Performance ensures greater stability and ride comfort on both wet and dry roads.
- Stylish and strong shoulder design to form enough ground contact in the outer area for crisp cornering.
- Wide longitudinal grooves and shoulder lateral openings provide optimum drainage when driving straight ahead.
- The whole 3-D edges design for smooth tread block entry into the footprint to improve acoustic comfort.
- Sporty tread compound and internal construction extend the dynamic performance to a wide range of service specifically for high performance electric and plug-in vehicles.

ROCKTRAXX M/T

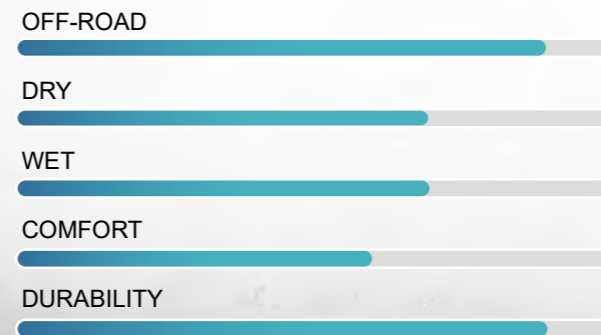

MUD TERRAIN

The ROCKTRAXX M/T features an innovative design to deliver versatile mud terrain performance, providing excellent traction both on and off-road. The tread pattern design in BBDT@ theory and 3-Ply internal engineering provide off-road performance, quick steering response and stability .

- Large side lugs with unique striking design.
- Tread with high-frequency biting edges and surfaces.
- 3-body plies construction.
- Specialized tread compound offers high tread wear resistance.

EUROTRAXX A/S

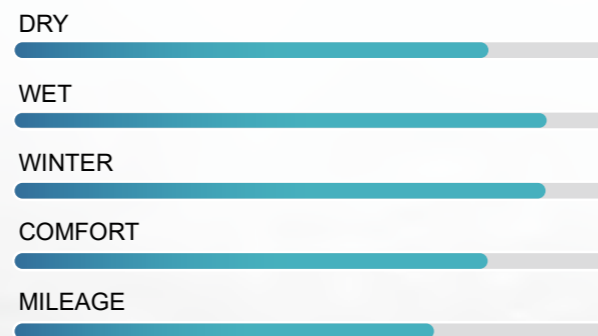

EUROTRAXX A/S

ALL-SEASON HIGH PERFORMANCE

The EUROTRAXX A/S is designed to perform in every climate condition, with excellent wet and dry braking and maintain traction and stability whether driving in wet or dry conditions.

- Wide lateral grooves; Improved drain performance with wide and high angled grooves.
- High-density all season sipes; Enhanced block stiffness provides better driving performance on dry roads.
- Pitch variation technology; Optimized pitch variation technology provides more comfortable driving.
- The product's construction with 3D sipes provides outstanding grip performance in all season conditions.

DURATRAXX VAN A/S

ALL-SEASON COMMERCIAL VAN

The DURATRAXX VAN A/S is a durable all-weather touring tire for sedans and crossovers. It features fuel savings and optimized mileage, shorter braking distances in the wet, and extended tread life.

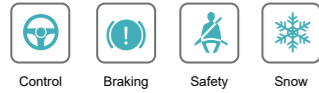

- Straight 3-channel waterway Resists hydroplaning for a safer drive in wet road conditions.
- Wide shoulder blocks are applied for a better grip and maximum road contact. Groove width is optimized for all-season performance.
- All Season Performance Compound Features a new compound developed with highly concentrated silica to maximize grip performance in wet, dry, and light snow.
- The product's construction with 3D sipes, provides outstanding grip performance on dry in all season conditions.

SNOWTRAXX H/P

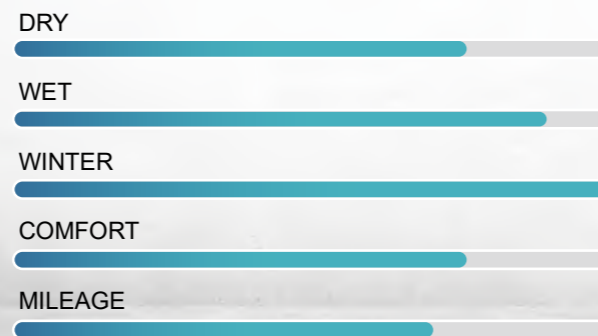

SNOWTRAXX H/P

STUDLESS SNOW TIRE

SNOWTRAXX H/P is a non-pitted winter tire specifically designed for SUVs and CUVs. It offers reliable grip and control, performing well in snowy, icy conditions and cold weather. With advanced winter formula and tread technology, it excels in harsh environments.

- The fine grooves on the tire tread instantly absorb the thin water film between the tire and the snow through capillary action, enabling the vehicle to drive freely on the snowy surface.
- The wide lateral grooves provide more sharp edges that can improve the traction and grip on snow, shorten the braking distance with power.
- The design of the tire shoulder with an outwardly expanded trumpet-shaped opening (similar to the structure of a snow shovel) effectively enhances the snow-discharging performance.
- The special tire tread low-temperature formula can still maintain physical properties such as elasticity even at low temperatures.

ULTRA HIGH PERFORMANCE

- Asymmetrical tread block geometry for even tread wear, excellent handling, and high-speed highway stability.
- Large outside blocks for enhanced braking and cornering responsiveness.
- Two wide circumferential grooves, efficiently channel water away to minimize hydroplaning.
- Variable pitch layout, optimized sipes distribution and grooves design to improve driving comfort.

PEAKTRAXX ATX

ALL TERRAIN

- Strength engineering and central large blocks deliver off-road traction + on-road stability.
- Rugged and extended over-the-shoulder tread for enough gripping and cuts prevented in harsh off-roading.
- Wide-narrow groove arrangement reduces road noise and improves traction.
- Strong inner structure + optimal biting edges: better handling, stable dirt/mud/snow performance, quiet rides.
